

Coding goals:

Use your knowledge of “**comments**” and fraction visuals, as well as inserting photos, to create a final video that shows your solution to your fraction division problem.

Coding goals:

This is part of your final art integrated assessment for fraction division!

Be creative, diverse, and focused!

Creating your video: As a team!

Topic	Level 3	Level 4 - Extra after level 3
Fraction visual	☐ Show your diagram of your solution ☐ Explain each part	☐ Show a different visual
Equation explained	☐ Include your equation ☐ Explain each part in terms of the word problem	☐ Show a different equation (Mr. van Dyck's trick)
Art integrated	☐ Include 2 creative images/sentences ☐ Organized	☐ Include 4 creative images/sentences

Creating your script: Silent Solo!

Topic	Level 3	Level 4 - Extra after level 3
Fraction visual	☐ Explain each part	☐ Explain both visuals
Equation explained	☐ Explain each part in terms of the word problem	☐ Explain other equation
Art integrated	☐ Creative, embellished sentences that make answers clear.	☐ Extra creative and engaging ways to present video

Group swap!

Play your video with your script to your new group mates!

Pause the video if needed if your script is longer than the frames per second.
